

Before you start browsing Amazon or planning big shopping trips at packed malls miles away, consider shopping locally for those gifts!

Preserve your mental and physical health by shopping small and contributing to your local economy for the holidays this year.

Shopping locally ensures that nearly 70 cents on every dollar remains in the local economy. When you shop small, you help to build a better local economy, reduce environmental impact, put your taxes to good use, create jobs, get better customer service, keep the community unique, and you encourage local prosperity. Whew—that's a LOT of good!

We've worked to curate this list of gift ideas from the local businesses who support our community all year long. With more than 20 local businesses represented on this list, you'll find something for everyone!

## *Deck the Halls*

These gifts are perfect for those interior designers in your life. Help them make a statement in their home!

- Home Décor from The Shiplap Shop & Coffee House
- Furniture from Christensen's Home Furnishings
